OPTIC FIBER DROP CABLE 3 MM, 1-12J G657 A2 , 1KN

DESIGNED FOR INDOOR/OUTDOOR USE

Optic fiber cable FDE S-QOTKSdD is designed for last-one-mile in the FTTx network, enhancing the accessibility to the fiber and maximizes the installation workability.
In this type of cable, Corning® SMF-ClearCurve LBL SM G.657A2 optical fiber is surrounded by aramid yarns.
Sheath made of flame retardant, low smoke, halogen-free compounds with UV resistant .

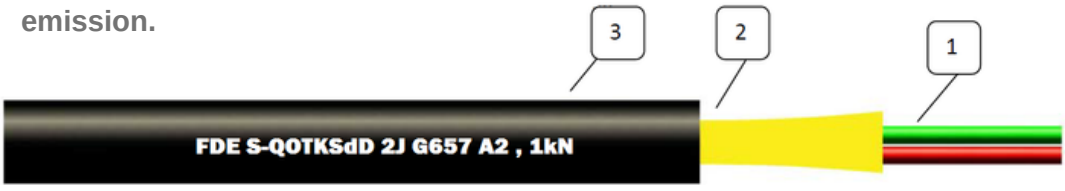

Advantages

- Corning® SMF-ClearCurve LBL fiber G.657A2
- Reinforced with aramid yarns
- 3mm diameter
- High elasticity
- UV resistant LSZH sheath
- Completely dielectric
- Packaging - plastic reel in a cardboard box

PRODUCT FEATURES

1 - single-mode optical fiber Corning® SMF-ClearCurve LBL SM
2 - strength element – aramid yarns.
3 - sheath made of flame retardant polymer with reduced smoke emission.

STANDARDS

IEC 60794-1-1, IEC 60794-1-2, IEC 60794-3-20

Thank you for your cooperation!
