STAINLESS STEEL TAPE 20X0,7MM

DESIGNED FOR INDOOR/OUTDOOR USE

The SB 207K tape is made of high-quality stainless steel in a convenient plastic dispenser that serves as packaging.
The tape is used to create cable ties with which we can attach brackets, hooks and cable reserve frames to poles.

The SB 207K tape is highly resistant to the destructive effects of high and low temperatures, stretching, tearing, UV radiation.
Tape width 20mm, tape thickness 0.7mm, package 1 roll - 50m
Weight: 5.20 kg net (5.45 kg gross with packaging).
SB 207K tape made of 1.4373 (AISI 201) stainless steel.
